

microSURE™
SURFACE
SANITIZER

PRIME ECO GROUP
Ecology Through Technology™

From the innovations of Strategia PM

What is microSURE surface sanitizer?

microSURE surface sanitizer is a water based, nano-particle fast acting silica formula designed to mechanically kill bacteria, fungi, mold and algae. microSURE can also inactivate and destroy viruses.

Properties

- Alcohol - Free
- Free of harsh fumes
- Does not degrade surfaces

How does microSURE work on surfaces?

- Once applied, microSURE surface sanitizer provides antimicrobial protection
- Our formula kills germs on contact and leaves an invisible, "breathable" barrier.
- The invisible "shield" allows people to experience heightened protection before and after exposure to harmful pathogens, keeping surfaces sanitized.

How microSURE protects you?

Its formula forms a covalent bond with the surface that mechanically kills germs, bacteria, and pathogens at contact.

- APPLY 1 GALLON FOR 5,000 SQ.FT.
- HIGH QUALITY AND EFFECTIVE BARRIER
- KILLING ACTION AGAINST PATHOGENS

Who can use microSURE ?

microSURE is an effective solution for:

- Healthcare Professionals
- Educators and teachers

Defense from
germs, bacteria,
and viruses that
may cause
disease.

About Us

Since 1998 our company has developed and co-developed products, systems, and patented technologies which we manufacture and supply to various markets worldwide. Prime Eco Group is committed to the research and development of new product designs, systems, and technologies to protect people, and its environment.

We develop eco-friendly products that bridge cost, quality, and environmental applications to the industries we serve across the globe.

The frequent exposure to germs, bacteria, and harmful pathogens represent a risk for people's health; that is why we supply products with a proven efficacy that allows us to live in a safer world. Prime Eco Group manufactures and supplies various forms of sanitation products. Prime Eco Group distributes **microSURE surface sanitizer**, an innovative product created by Strategia Project Management, Inc.
