

microSURE™ HAND SANITIZER

What is microSURE hand sanitizer?

microSURE hand sanitizer is a unique sanitizer that forms an anti-microbial barrier that is effective in reducing bacteria that can potentially cause disease. Our products adhere to strict clearance processes and guidelines set forth by the FDA.

microSURE hand sanitizer uses new micro-nano technology to protect people from the growing threat of harmful pathogens worldwide.

Properties

- Alcohol - Free
- Free of harsh fumes
- Moisture - Infused foam or spray
- Does not degrade surfaces

How does microSURE work in your skin?

- Once applied, microSURE hand sanitizer provides antimicrobial protection
- Our formula kills germs on contact and leaves an invisible, "breathable" barrier.
- The invisible "shield" allows people to experience heightened protection before and after exposure to harmful pathogens, keeping hands protected.

How microSURE protects you:

After applying on your skin, a protective barrier forms to kill harmful pathogens as they come in contact with your skin.

- HIGH QUALITY AND EFFECTIVE BARRIER
- KILLING ACTION AGAINST PATHOGENS
- PROTECTION FOR YOUR HANDS

Who can use microSURE ?

microSURE is an effective solution for:

- Parents and children
- Healthcare professionals
- Educators and teachers
- Students
- Athletes
- Travelers
- Social workers and public servers
- All industry workers and staff members

Industries we serve:

- Schools
- Restaurants
- Hospitals
- Airlines
- Leisure and Travel
- Convention Centers
- Sports Centers
- Retail & Public Services
- Manufacturing

How to use microSURE hand sanitizer:

1

Place enough product in your palm to cover your hands thoroughly.

2

Rub hands together and allow to dry. Do not rinse or wipe off your hands before it's thoroughly dry.

3

Reapply as needed. Typical applications can be 2 to 3 times per day for daily protection.

Benefits:

NDC Approvals
&
Certifications

Physician
tested

Defense from
bacteria that
may cause
disease

FAQ's:

Frequently Asked Questions

- **QUESTION:** How does this product eventually wear off?

ANSWER: Eventually, over time, this product will wear off on the skin. This is mainly because your skin sheds naturally and sloughs off throughout the day as you are engage in common activities such as washing and drying of hands, touching of surfaces etc.

- **QUESTION:** Will this product wear off if I apply sun-screen, other hand sanitizer types, skin lotions , creams, or wash my hands with soap and water?

ANSWER: Using lotions, oils, alcohol based hand sanitizers, and washing of hands with soap and water will not immediately dissociate the bonds created between the skin and the product; however, constant application of these products or vigorous and continuous rubbing may cause the product to wear off sooner than expected.

- **QUESTION:** Does the product wear off with sweat?

ANSWER: Direct sweat testing has not been conducted, but as you perspire and the skin cells on your skin begin to shed, there will be eventual wearing off of the product over time.

- **QUESTION:** Are there any known allergic reactions to bare skin or skin with lotions applied?

ANSWER: Presently, there have not been any known or documented allergies from individuals using this product.

- **QUESTION:** Will this product prevent me from getting infected with COVID-19?

ANSWER: No. This product is a hand sanitizer, not a vaccine or prescription medication.

About Us

Since 1998 our company has developed and co-developed products, systems, and patented technologies which we manufacture and supply to various markets worldwide. Prime Eco Group is committed to the research and development of new product designs, systems, and technologies to protect people, and its environment.

We develop eco-friendly products that bridge cost, quality, and environmental applications to the industries we serve across the globe.

The frequent exposure to germs, bacteria, and harmful pathogens represent a risk for people's health; that is why we supply products with a proven efficacy that allows us to live in a safer world. Prime Eco Group manufactures and supplies various forms of sanitation products. Prime Eco Group distributes **microSURE hand sanitizer**, an innovative product created by Strategia Project Management, Inc.
